

RoadRunner Mobile

RoadRunner™ Mobile provides remote live video access to any networked RoadRunner™ DVR. Ideal for portable remote monitoring and maintenance of video camera systems on transit buses, police cars, trains, school buses, light rail vehicles and facilities, RoadRunner Mobile is compatible with any TCP/IP based network. The RoadRunner™ Mobile app can be used over Wi-Fi or cellular networks for use with iPhone® or iPod® Touch.

Available on the
App Store

Live Remote Access: Provides transit personnel and first responders with live data for emergency and incident response.

On-Board Maintenance: Easy and portable method for maintenance personnel to ensure cameras views are adjusted properly.

Network Compatability: Compatible with any TCP/IP based network, RoadRunner Mobile can be used over Wi-Fi or cellular networks with iPhone® or iPod® Touch.

Features and specifications are subject to change without notice
iPod touch and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries.

Fleet-Wide Access: RoadRunner Mobile allows you to view any camera on any networked RoadRunner DVR system.

Secure: Password protection provides secure, restricted access.

Stores Data: A “favorites” list provides instant access to frequently viewed systems. RoadRunner Mobile supports connections using DVRNS (DVR Name Service) when available.
